Ali- Colorado Mesa, Whittier
Jonathan Moreno- Chico State
Alexus Esquivel- Chico State, La Sierra University, Cal Baptist University
Roman Perez- Chico State
Jeanette- Azusa Pacific University, La Sierra University
Shaida- La Sierra University

As we all know, we had some really tough finals this past week. But have no fear, our teachers and AVID tutors were here! Throughout the semester, we had our tutors here three times a week to help us in the classes we are struggling in. On Sunday, our amazing teaching staff at **REV** and our awesome tutors all devoted four hours of their Sunday to come help us study a little while longer or go over some last minute things to prepare us for those difficult finals. Every AVID student was required to complete two hours. There were some teachers who even offered extra help on Monday as well. We would like to just point out that AVID students have a huge advantage by participating in this study-a-thon and we highly encourage that your child takes full advantage of this in the future. You will definitely see results!

Meet our New AVID Teacher!

As some of you know, we have a new addition this year to our AVID staff. Mr. Ordaz is our freshman AVID teacher and luckily, he had the time to answer some questions that we had. Ordaz actually went to Redlands East Valley High School too. When we asked him if he was in AVID when he went here, he said no and that he never knew about AVID until he was a sophomore. He loves teaching the freshman because they are funny, very enthusiastic and they all show a desire to learn. By the way, this is what an AVID student is all about so we love to hear that! Mr. Ordaz said that he loves his job because every day is different and he gets to interact with his students and never has a dull moment. He said he saw a different side of teaching when he went to college and he wanted to help. So we asked him why he came back to REV to teach and he said because this is the best school around. Of course it is! We all love

Mr. Ordaz

AVID and we hope he loves teaching AVID too. *Happy Holidays!*

From, your AVID seniors.
